

# CyberTablet M14

12" x 7.25" Widescreen Media Graphics Tablet

The CyberTablet M14 is one of the most spacious tablets in its class. The M14 supports a 12" x 7.25" or 9.5" x 7.25" selectable writing area and is great for graphic artists and animators, architects and engineers, web designers and people who love to draw. It is ideal also for students and professional who are in to handwriting, sketching, coloring and editing photos. It features a powerful pressure sensitivity to accomplish the most sophisticated computer-aided design task with the aide of 4000 lpi (lines per inch) hardware resolution and 1024 lop (level of pressure) pen sensitivity. With the aide of an ergonomic pen, as well as software included in the package, CyberTablet M14 lets you draw naturally and allows you to write freehand graphics and text, as comfortable as on a real paper. Moreover, the CyberTablet lets you draw or write easily on your PC or Mac.

### ■ Handwriting Recognition

This new recognition technology, efficiently and accurately converts a wide variety of handwriting styles into typed text. All you need is Microsoft Windows Vista and the Cybertablet M14, and your handwriting will be instantly converted into typed text with the stroke of your pen.

### ■ Mark up, Sign, and More in Microsoft Office 2007

Always wanted to sign your name on e-mails? Or fill out an Excel sheet with your own handwriting? With the Cybertablet M14, you can instantly and easily produce inking to your own office documents or handwritten letters directly to MS Outlook.

### ■ Programmable Macro Keys, Hot Keys and Rolling Pad

Now it is simple to find your favorite programs at a click on your tablet. It has defined hot keys such as cut, copy and paste which shortens each task. You can also program 34 hot keys to fit the style of work at hand. It also have 5 hot keys for Scrolling, Zooming, Volume control, 16:9 Widescreen and 4:3 Standard writing area. Two rolling pads for left and right hand orientation.
