CyberTablet Z12

10" x 6" Widescreen Ultra Slim Graphics Tablet

The new CyberTablet Z12 features a 10"x 6.25" work space for drawing, handwriting, sketching, coloring and picture editing. This Z12 version comes with a Adobe® Photoshop® Elements 7.0 application and ArtRage 2.5. This tablet enables you to control the pressure level of the pen. With a 1024 lop (level of pressure) you could adjust the lightness or thickness of your strokes. It features accurate pressure sensitivity to accomplish the most sophisticated computer-aided designing tasks. A powerful, yet easy-to-use combination of an ergonomic pen, tablet, and software lets you naturally draw and write freehand graphics and text as comfortably as you would on real paper. Plus, its small enough to go wherever you go.

■ Handwriting Recognition

This new recognition technology efficiently and accurately converts a wide variety of handwriting styles into typed text. All you need is Microsoft Windows Vista and the CyberTablet Z12, and your handwriting will be instantly converted into typed text with the stroke of your pen.

■ Mark up, Sign, and More in Microsoft Office 2007

Always wanted to sign your name in a Email message? Or fill out an Excel sheet with your own handwriting, well with the CyberTablet Z12, you can instantly and easily produce inking into your own office documents or handwritten letters directly into Outlook.

■ Programmable Macro Keys, Hot Keys and Rolling Pad

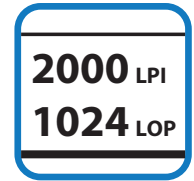

With the CyberTablet Z12 it has never been easier to create, edit, or emphasize your presentations or the images you want. Using your the CyberTablet Z12, you can use the stylus to write, sketch, circle, or add notes during your presentation to emphasize important points. For example, you can draw attention to something specific on the slide, like an upward trend on a graph, by using the stylus to draw, circle, or highlight the area.
