CyberPen 303B 3-in-1 Stylus Pen

The Adesso CyberPen 303B is the perfect accessory for all your touch screen devices. Use the stylus rubber tip to navigate, draw, take notes and interact with all your touch screen devices more accurately and fingerprint free. The stylus pen also features an ink pen for you to quickly jot down notes on paper anywhere you go. Simply pull the center of the pen out and switch from stylus to ink pen within seconds. With the built-laser pointer of a 200m range, the CyberPen 303B lets you stay on point during any meeting or presentation.

■ 3-in-1 Executive Stylus Pen

Stylus pen features both a rubber tip to navigate touch screen devices and ink pen to write down notes.

■ Accurate Response

The stylus pen rubber tip provides a more accurate response than using fingers, so you always select what you want.

■ Drawing & Painting Control

The stylus pen rubber tip provides better control for drawing and painting with your device applications, so you can control every detail.

■ Prevents Fingerprints & Scratches

The stylus rubber tip prevents unwanted fingerprints on screens and won't scratch your screen.

■ Compatible With All Touch Screen Devices

CyberPen 301 works with all touch screen devices, including popular brands: iPad 2, Galaxy Tab, PlayBook & Xoom.
