WKB-2000BW
Bluetooth® 3.0 Waterproof Keyboard for Mac

FC CE RoHS Compliant

| Internet & Multimedia | Water Resistant, Quiet Typing, Fast Response | Slim, Compact & Portable | Bluetooth 3.0 Wireless Technology | Built-In Rechargeable Battery |

Detachable Bluetooth Silicon Keyboard is Wireless, Waterproof, Silent and Fast
This Bluetooth keyboard offers the freedom to use your keyboard at any angle and with other Bluetooth enabled devices. The silicone material used in this keyboard will protect it against spills and let you wash it regularly, to keep it germ free. Unlike other silicone keyboards, the rigid backing on the WKB-2000BW keyboard provides a fast response, while the tactile key switches are almost silent.

Manage E-mails and Browse the Internet
The Adesso WKB-2000BW is designed to make e-mail management, Internet browsing and other typing activities comfortable and productive. The Bluetooth Waterproof Keyboard for Mac provides the same great feeling of a laptop, so you can comfortably respond to e-mails, communicate on social media, and browse the internet for hours.

Compact And Portable
Measuring only 9" in length and just over an inch in width, the WKB-2000BW is not only slim and portable, which saves desk space and keeps from a cluttered work area, but it also is the perfect keyboard to take anywhere you go whether its to school, the library, or while traveling.go whether its to school, the library, or while traveling.

Built-In Rechargeable Battery
The WKB-2000BW comes equipped with a Polymer rechargerable battery that is easily recharged by connecting the Micro USB cable (included) to your computer. Get up to 100 hours of continious use without having to change batteries ever, or even charge your built-in battery.
