# TruForm™ 150 ( AKB-150CB ) Desktop Ergonomic Keyboard & Mouse Combo

### Ergonomic Shape

The ergonomic design of this keyboard along with its gently curved shape encourages natural typing positions for maximum comfort during long use.

### Integrated Palm Rest

The integrated palm rest positions your hands at a natural resting position. This helps relieve joint and back pain, spinal discomfort, and improves typing posture.

### Keyboard Split Key Design

Standard keyboards force your hands to be close to each other while split key keyboards create a wider distance between your hands. This distance helps alleviate strains on the neck and back that would otherwise build up using standard keyboards.

### Internet & Multimedia Hotkeys

Get instant access to your commonly used Internet and multimedia tools with the 20 built-in hotkeys this keyboard has to offer.

### Advanced Optical Sensor Technology

The Optical sensor technology lets you work on most any surface with improved speed, accuracy and reliability than traditional mice.

### Adjustable DPI Switch

Adjust your DPI resolution (800/1200/1600 / 2400) for pixel-accuracy or faster responses with the convenient DPI switch located on top of the mouse.

### Mouse with Ergonomic Design

The contours, navigational back and forward buttons, and side grips on the mouse are designed to eliminate hand strain while providing greater cursor control and comfort.
